MINI MISSION

Background

Experts say that in ten years we might not even go to a physical school building any more. And students won’t carry heavy school bags full of books and materials. Computers will disappear from the classroom.

Your mission

If you didn’t go to school to learn, where would you go? Build the learning space of the future that is not a school. Make sure it is sustainable.

Think big, think small, think wild. Every idea is a good idea! Be sure to share your ideas with Take Action Global and the LEGO Group, BUT make sure that your photos are only of your creation and don’t include anyone’s faces.
